LEGISLATIVE COUNSEL'S DIGEST

AB 1603, as introduced, Stone. Outdoor Environmental Education and Recreation Program.

Existing law establishes the Office of Education and the Environment in the Department of Resources Recycling and Recovery for the purpose of implementing a statewide environmental education program.

This bill would establish the Outdoor Environmental Education and Recreation Program in the Department of Parks and Recreation, for purposes of increasing the ability of underserved and at-risk populations to participate in outdoor recreation and educational experiences by awarding grants to education programs that are available to the public and are operated by public entities or nonprofit organizations. The bill would create the Outdoor Environmental Education and Recreation Fund in the State Treasury and provide that, upon appropriation by the Legislature, moneys in the fund shall be used for awarding grants pursuant to the program. The bill would authorize the Director of Parks and Recreation to accept, and require the director to deposit into the fund, voluntary private donations made for support of the program. The bill would express the Legislature's intent that the fund be capitalized with moneys from the General Fund and donations.

This bill would require the director to develop program components, including, but not limited to, criteria for awarding grants, and staffing and budget needs. The bill would require the California Environmental Education Interagency Network to serve as an advisor to the director in developing the program components. The bill would require the director to give priority for funding, where feasible, to outdoor environmental education programs with specified attributes. The bill would require the director, by January 1, 2016, to submit to the Legislature a report on the criteria for the awarding of grants and the availability of grant funding.

The people of the State of California do enact as follows:

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) The California Environmental Education Interagency
- 4 Network (CEEIN) was established in 1993 as a consortium of
- 5 environmental educators representing departments, boards, and
- 6 commissions of the State Department of Education, the California
- 7 Environmental Protection Agency, the Natural Resources Agency,
- 8 and the Department of Food and Agriculture. The primary goals
- 9 of CEEIN are to develop a unified response to the environmental
- 10 education needs of California’s educators and local governments,
- 11 and to assist with statewide educational reform movements.
- 12 (b) The Legislature enacted Chapter 663 of the Statutes of 2003,
- 13 which established the Outdoor Environmental Education Program
- 14 and required a study on the benefits of outdoor environmental
- 15 education for at-risk youth and underserved demographic groups.
- 16 The study found that the science test scores of children who
- 17 participated in the program were raised by 27 percent, and these
- 18 children also had improved conflict resolution and problem solving
- 19 skills, self-esteem, and motivation to learn. This program ended
- 20 on January 1, 2006.
- 21 (c) The Legislature enacted Resolution Chapter 101 of the
- 22 Statutes of 2006, which recognized the importance of local
- 23 recreation and park agencies in the effort to reverse negative trends
- 24 in inactivity, obesity, diabetes, and other health problems among

1 Californians and encouraged the state to use, and partner with,
2 local recreation and park providers to create a healthier state.
